CAREER OBJECTIVE

Started building sites as a hooby, I am driven to make it transits into my professional career. I am intrinsically motivated to explore and master emerging technologies, eagerly diving into practical experiences. My aspiration is not only creating visually engaging apps and websites, but to make the internet a better place through participating into its process.

WORK EXPERIENCE

Physiotherapist

Hospital Authority and freelance

📅 2016 - 2023   📍 Hong Kong

- Collaborated with 30+ staff and other disciplinary members to provide a cohesive, holistic care plans in in-patient, out-patient and elderly home settings
- Carried out assessment and treatments for 15+ patients suffering from acute and chronic musculoskeletal and neurological conditions per day in out-patient setting
- Maintaining physical wellness and providing necessary treatment for 200+ elderly in a elderly home
- Providing training and assessment to ensure the competence of assistance staff

Web development Bootcamp

Cogrammar / HyperionDev (in partnership with the University of Nottingham)

📅 March 2024 - current   📍 London, UK

- The bootcamp aims to introduce and equip web development knowledge by completing practical activities
- Acquired hands-on experience with popular web development libraries, including React and express
- Strengthened javascript abilities within six months, enhancing both coding proficiency and front-end development best practices
- Porfolio: www.hyperiondev.com/portfolio/BY24020013642/

PROJECTS

Kiku
